PROFESSIONAL SUMMARY

As a new developer and graduate of the University of Richmond Full Stack Web Development Bootcamp, I am excited to incorporate my skills into the professional realm of Software Development. I have a passion for producing quality software with a focus on Front End Design. I am a diligent worker, critical thinker, and natural problem solver that will be a valuable asset to your company.

TECHNICAL SKILLS

LANGUAGES : HTML, CSS, JavaScript, SQL, NoSQL

TOOLS : Express, Node, React, Handlebars, jQuery, Bootstrap, Figma, Git/Github, MongoDB, MySQL

PROJECTS

PITCH

Summary: An application that utilizes third-party API's and allows the user to explore hundreds of musical artists. Pitch was a collaborative project created by three other bootcamp students and myself.

Role: Front End Designer and API support

Tools: HTML, CSS, JavaScript, jQuery, Materialize, Youtube API, BandsInTown API, MusicBrainz API, Local Storage

Repository: github.com/twkirkpatrick/deep-cuts

Deployed Application: lucsedirae.github.io/deep-cuts

EXPERIENCE

TEACHING ASSISTANT, THE FAISON CENTER, RICHMOND, VA – 2014-2020

- Utilized Applied Behavior Analysis to teach functional and academic skills to students with Autism Spectrum Disorder.
- Used Microsoft Excel to organize and graph student behavior data.
- Developed educational programming based on student's Individual Education Program (IEP).
- Taught students job skills at several internship sites throughout the City of Richmond.

EDUCATIONAL ASSISTANT, BETHEL SCHOOL DISTRICT, EUGENE, OR – 2013-2014

- Assisted with classroom instruction and provided support to students with developmental disabilities.
- Collaborated with classroom teacher to monitor student progress and goals.
- Facilitated in-class activities geared towards instructional and social skills.
- Supported students with emotional and behavioral issues and worked to create functional solutions to those issues.

EMBROIDERER, MAGIC THREADS, RICHMOND, VA – 2012-2013

- Ran and monitored an industrial sized sewing machine in the production of products for custom and contract embroidery jobs.
- Maintained the machine and ensured it was running properly.
- Assisted in the cleaning and shipping of products.
